Re: Request for Information
 Poverty Point Limestone Quarry
 Tooele County, Utah
 Your letter of February 4, 1981

Dear Mr. Smith:

Thank you very much for your letter of February 4, 1981, to Bob Marsh, specifying the additional information necessary to complete Ideal's Notice of Intention to commence mining operations. It was quite helpful to have the Division of Oil, Gas and Mining list the missing information so that Ideal may complete its Notice of Intention as expeditiously as possible. Ideal will provide the Division the additional information in sufficient time to allow the Board of Oil, Gas and Mining to consider Ideal's Notice of Intention on February 26, 1981. Please put the matter on the Board's agenda for that meeting.

At paragraph #8 of your letter, you have requested a copy of a conditional use permit from Tooele, County. This request came as somewhat of a surprise inasmuch as it was not one of the matters discussed in our meeting on January 20, 1981. In any event, Ideal has not yet received that permit from Tooele County. The Tooele County Planning Commission will hear Ideal's application for a conditional use permit on March 11, 1981. They

should rule on the application at that time or shortly thereafter. We will forward a copy of that permit to you as soon as it is received. I am advised by Mr. Leland Spencer that action by the Division on Ideal's Notice of Intention need not be delayed until Tooele County acts, and that County approval while necessary to commence mining, is not a condition precedent to the State's mine plan approval. Accordingly, we look forward to your expeditious action on the Notice once the other items in your February 4, 1981 letter are submitted. Please be advised, however, that Ideal will not commence operations until after the conditional use permit is obtained and a copy of that permit is forwarded to your office. If you have any questions or concerns about this matter, please do not hesitate to contact me.

Very truly yours,
